God on a Mission; Portraits of Grace July 12th – 27th 2024

Our 2024 summer vacation Mission and Evangelism projects commenced in July on the beautiful Island of Barbados. The youth of the Seventh-day Adventist Church in the East Caribbean Conference demonstrated their passion and preparedness to join in God's mission. They brought their energy, innovation, and creativity to prepare the Field and the church. From March, each zone conducted **Park & Praise** events aimed at praise, thanksgiving, and celebrating the Sabbath with their friends and relatives at different locations across the Island of Barbados. **Friday Night Fire** was the online version that included participants from across the Division. In June, a revival under the theme "**Clash of the Lions**" was conducted and proved very effective in getting members out to Sunday night meetings.

This project saw a greatly reduced number of overseas missionaries (43) due to several other activities held at the same time. God provided the resources to enable us to enlist children and youth as missionaries to the churches. All 14 sites were effectively staffed by the 112 participants. Every parish on the Island benefited from community projects and Bible Clubs for the children. At the end of the 2 weeks of Mission and Evangelism activities **65 precious souls were added to the kingdom of God**.

The Battle is not Yours, it's the Lord's; 31st July - 24th of August 2024

Ninety-two participants from across the Division joined the Experimental Mision Pacifico Central, 5 hours from Panama City, for the second project. Week 1 featured the beginning of the community projects and health fairs across several pastoral districts. Community projects included repairing homes, painting schools and parks, feeding the homeless, visiting the hospital and the prison, and distributing food baskets and care packages. The two weeks of evangelism that followed saw the church embracing the public proclamation of the gospel. The local evangelistic teams were comprised of both youth and Elders who were trained in May of 2024. This was truly an inter-generational effort. It was with great joy we celebrated with them, two (2) weddings and 45 baptisms as the first fruits of work.

Impact Panama Featured Construction Projects

“The House with No Doors”

Over the course of two days, the house with no doors and a mud floor was transformed to securely house the family who occupied this house. Doors were installed and a concrete floor cast.

A wheelchair bound elder resident was unable to use his wheelchair to easily enter and exit his property to use the bathroom facilities which are located outside of the home. Our construction team set out to cast a patio with an adjoining ramp which allow for the elderly occupant to easily have access to his home and the outdoor facilities.

Thank You

The summer vacation evangelism of our missionaries concluded with 110 persons added to the kingdom of God. We thank the IAD Adventist Missions Department and the Panama Union of Seventh-day Adventists for facilitating the project.

We thank President Anthony Hall of the East Caribbean Conference and President Joe Sanchez of the Central Pacific Region and their Administrators for hosting the projects. We also thank the Caribbean Union Conference and Adventist-laypersons Services and Industry (ASI IAD) for resourcing the projects. We thank all the donors and sponsors who have supported these children and youth as they demonstrate their willingness to join the Holy Spirit and work within whatever condition they find a culture, directing humanity to God who is transforming them, as they work for Him.
